Internal Income Program 2019 and forward.

We want to create sources of income that can create works or extra income for members teach skills that will be useful outside of Sponsor Light and at the same time make an income for Sponsor Light for slashing, maintaining and emergency costs around the house and project. Moa will focus on the tourist part and Simon plus board members and other parents as well can focus on a local business that can generate money and some work opportunities. We will try them one by one and see which works and not. We will keep updating the list and when we are ready for one we will try.

- Rent out a space at Zigge
- Hosting tourists at Zigge
- Teaching tailoring skills and make items for selling
- Crafts shop
- Computer café
- Storing maize and other foods
- Food shop
- Restaurant on demand
- Crafts center, work shop
- Parties renting the hall
- Community tours
- Volontairs
- Chicken/Rabbits
- .
- .

Investments that should be done during 2019.

Prioritized 1-5 together with board members, the rest of the list is still open.

- Fence the property
 - A project of tailoring on the “internal income program”
 - Fix the roof
 - A project of keeping a food store on the “internal income program”
 - Crafts cupboard and a board of tourist info
-
- Windows
 - Solar light/generator for electricity at Zigge
 - Sitting area outside
 - Play ground
 - Finish kitchen

Visions for Sponsor Light Children

All 54 children of the project should be offered to be a part of the project until they finish Senior 4 or drop out by choice.

Being a part of the project means:

- Every term a sum of 100 000ugx push for school fees.
- Lunch every school day.
- Coaching at Zigge House on weekends.
- Activities on holidays that strengthens the feeling of being part of a group, the happiness of learning and the awareness that education is good and that you create your own future.
- An annual Christmas party with some extra support to the families.
- Rewards for good performances at school and other activities that shows the children that we are interested in their education and that school is very important.
- A found for extra talented children, where they can apply for money for higher studies.
- A business belonging to Sponsor Light that can generate some work opportunities and generate some income to the project.

About bringing on Extra children, we must be very careful because they must also be secure until s.4 with same terms as above.

Visions of Zigge House

Zigge House should be an open, positive and encouraging place for children, parents, visitors, villagers and tourists. We must keep developing the physical site with this kept in mind.

In the future we will have a tourist Centre as well as an activity house for our children and a meeting point for the adults.

Children

-They should always feel welcome with engaged coaches and good activities around Zigge House. We will create a play ground for them and a place where they can learn, enjoy and feel that they themselves can change their future.

Villagers

-Must always know that they can borrow Zigge House for activities. Meetings and gatherings so that they also benefit from us being there. There might always be a chance we can add more children and we must try to be fair within the area. Educations, workshops and other activities towards adults should always try to be as open as possible so that we can reach more ppl in the area.

Tourists

*Presented and approved
At board meeting Ruwenzori-Swe Foundation
at Zigge House, Kibenge
11.01.2019*

-With one employed we can always open for people that just drops by, serve tea/coffee/drinks and fruits/small snacks, open the craft shop, give them contacts within Kasese and advise them where to go plus tell our story about Zigge House. On demand, we should be able to host up to 20 ppl, camping standard with breakfast and lunch plus guiding around the area, community walks. We can also arrange for a stop before the mountains with either packed meal or served there.
